DETAILED ACTION

1. The Amendment filed by Applicant on 06/29/2006 has been entered.

Response to Amendment/Arguments

2. Applicant's amendment and arguments filed on 06/29/2006 have been fully considered and they are found persuasive.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

4. Claims 1-22 are rejected under 35 U.S.C. 102(e) as being anticipated by Helbing et al., U.S. Patent No. 6,555,616 (hereinafter "Helbing"). Helbing teaches a method of preparing a fiberglass composition comprising an ammonium salt of an aryl

Art Unit: 1713

sulfonic acid and a resin (i.e. phenol-aldehyde resin). See Helbing, Abstract; col. 3, line 21 through col. 4, line 58.

5. The Applicants argue Helbing's ammonia salt of an aryl sulfonic acid does not contain an additional reactive (i.e., an olefinic double bond). The claims recite, "a coating composition comprising a reactive sulfonic acid derived compound . . ." (emphasis added). Interpreting the claims as broadly as possible, a reactive sulfonic acid derived compound encompasses a catalyst (reactive requirement) comprising an ammonia salt of an aryl sulfonic acid.

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

7. A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated

Art Unit: 1713

from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert D. Harlan whose telephone number is (571) 272-1102. The examiner can normally be reached on Mon-Fri, 10 AM - 8 PM.
